Dan Meyer

Use Your Technology: Don't Let Your Technology Use You!

February 8, 2024
Medinah Shrine Banquets
In-person & Live on Zoom
9:00 am - 3:00 pm
Includes 5 PD Hours, Parking,
Continental Breakfast and Lunch

There are hundreds of technology products looking to support your students' math learning. But what are your values and beliefs about math, and how well do those products align? In this session, we will learn together why students dislike math. Together, we will experience a math classroom that is connected and creative, and we will learn how to choose free technology that develops those classrooms, making technology a tool that teachers use rather than the reverse.

Dan Meyer taught high school math to high school students who didn't like math. He has advocated for better math instruction on CNN Good Morning America, Every Day with Rachel Ray and TED.COM. He earned his Doctorate from Stanford University in Math Education and is the Chief Academic Officer of Desmos, where he explores the future of math, technology and learning. He has worked with teachers internationally and in all fifty United States. He was named one of Tech & Learning's 30 Leaders of the Future.

Your Success Criteria for the day:
- Learn why students dislike math
- Experience several forms of math education technology from the perspective of a student
- Live a curated tour of tools that may help or hinder your highest ideals as a teacher
- Reflect on your highest ideals for your classroom and convert them into a rubric to evaluate those technologies
- Learn about technology and its role in:
  a. Engaging Students
  b. Giving Feedback
  c. Connecting the class as a social unit

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Who Should Attend:
Teachers, Teacher Coaches, Tech Specialists, Principals, Curriculum Specialists

Examples used in this workshop will be focused on grade levels 6-12. All concepts can be applied to all grade levels

Use Your Technology: Don't Let Technology Use You!
