

Math Games For Grades 4-8 Educators

Are you looking for engaging and effective ways to help your 4th to 8th grade students gain confidence and competence with key math concepts?

Come prepared to play math games that incorporate the use of cards, dice, multi-sided dice, number lines, fraction manipulatives, and other easily found math manipulatives.

Expected Outcomes:

- Understanding Place Value System including Whole Numbers and Decimals
- Fact Fluency Intervention
- Basic Facts
- Fractions, Decimals and Percent including Operations with Fractions
- Multi-Digit Operations including Order of Operations
- Beginning Algebra and Linear Equations
- Integers and Operations with Integers
- Statistics, Data Management and Organization of Data in Charts and Graphs
- Interpretations and Inferences based on data presented in graphs

Throughout the workshop participants will have opportunity to play each game, learn how to differentiate the activities, how to develop math journal extensions, maximize math talk and integrate problem solving strategies, and how to use the game activities for assessment purposes. Student samples, game boards, ideas for whole/small group instruction will be provided. Interspersed will be practical ideas for classroom organization and management to ensure effective implementation of games as a teaching strategy. Ideas for developing weekly lesson plans, and samples will be shared. Participants will be able to implement what they learn the next day in their classrooms and schools.

Who Should Attend? 4-8th Grade teachers, teacher assistants, special ed and after school program staff, curriculum coordinators, teacher coaches. This is great timing for teachers to plan summer school programs and also to PLAN for solid implementation for your classrooms.

LIMITED RESOURCES WILL BE AVAILABLE ON-SITE FOR PURCHASE

Can't attend these dates? Contact Ryan Nevius at IL ASCD 618-203-3993 or rcneviu@me.com
