Bobak's Signature
Event Center
Woodridge, IL
8:30am - 3:30pm
6 P.D. Hours

Registration Includes: Parking, breakfast, lunch and a copy of Jo's Book *Limitless Mind*

Who should attend?

Teachers, administrators, coaches, counselors, anyone wanting to improve leading, & learning

Dr Jo Boaler is the Nomellini & Olivier Professor of Education at Stanford University. Former roles have included being the Marie Curie Professor of Mathematics Education in England, and a maths teacher in London comprehensive schools. She is a White House presenter on women and girls. She recently formed youcubed.org to give teachers, parents and students the resources they need to excite students about mathematics. She was named by the BBC as one of the 8 educators “changing the face of education”.

Recent years have seen an explosion of scientific evidence, from neuroscience, psychology and education showing that there is a different way to teach and learn, available to us all. When people take a limitless approach to learning – in content areas and in life – different pathways open up to them, leading to higher, more equitable and more enjoyable achievement. Mindset messages are important but they do not take root unless they are accompanied by a multiplicity approach to content and life.

“Boaler is one of those rare and remarkable educators who not only know the secret of great teaching but also know how to give that gift to others.”

Carol Dweck, author of *Mindset*

In this workshop, Dr. Boaler will expand on the best practices presented in *Mathematical Mindsets* by revealing six keys to unlock learning potential across all content areas and in life. She will share the explosion of scientific evidence from neuroscience, psychology and education that supports a different way to teach and learn—one that creates equitable and engaging learning.

Jo Boaler: Limitless Mind
