

The Postsecondary and Workforce Readiness Act (PWR Act) requires that every public high school implement a transitional math course for their seniors in the 20-21 or 21-22 school year. That process includes creating a course that meets state requirements, getting it approved, getting the right students in the course, having materials, and having teachers comfortable with the instructional approach. To make this manageable, Kathleen Almy held summits with every Illinois community college partnership throughout 2017-2019. These well attended and well received events helped hundreds of high school administrators, counselors, and math teachers get comfortable with the requirements and the process to complete them. She has continued to provide many professional development events, programs, and materials to support schools as they implement transitional math. Now she is offering summits in an on-demand video series built to help schools on their timeline with asynchronous and synchronous support while they learn.

1

## Module 1

### IL Transitional Math Overview

- Need for transitional math
- Requirements of high schools
- Key components of transitional math

2

## Module 2

### Audience

- Who should and should not take transitional math
- Transitional math and graduation
- Transitional math and NCAA
- Projected readiness determination
- Placing high school juniors
- Recruiting students

3

## Module 3

### Compliance

- Portability
- Document requirements
- Timelines for meeting compliance
- Working in a partnership

4

## Module 4

### Courses

- Transitional math pathways
- Competencies and key performance indicators
- Competency spreadsheet for portability
- Materials and resources

5

## Module 5

### Instruction

- Philosophy of transitional math
- Instructional requirements
- Grading
- Syllabus for portability

## Who Should Attend

Any IL high school administrator, counselor, or high school math teacher

Be prepared  
for the  
Postsecondary  
and Workforce  
Readiness Act  
due by  
2021 or 2022  
School Year

Summit On Demand includes:

- 5 Modules, each 45-60 minutes in length, chaptered by subtopic
- Short assessments after each session
- Asynchronous discussions with Kathleen and other participants via a private Slack channel
- Two synchronous office hour sessions with Kathleen offered via Zoom (optional)

Sessions are available:  
November 9, 2020 – January 29, 2021

Live Zoom office hours:  
Tuesday December 15, 2020 (3:30 to 4:30 pm);  
Wednesday January 27, 2021 (4 – 5 pm)

Professional development hours: 6

Kathleen Almy is the CEO and founder of Almy Education, providing colleges and high schools with solutions for math initiatives and improvement to math courses and policies. She is the former Illinois Director for Transitional Math where she led the statewide implementation of transitional math courses across Illinois. Prior to her administrative work, she was a mathematics professor with 20 years of experience in high school and college classrooms. Her degrees include a B.S. in Mathematics Education from Southern Illinois University and an M.S. in Pure Mathematics from Northern Illinois University.
