

Math Games and Activities Grades 6-8

Available From March 4-
August 30

Fraction, Decimal, Percent & Ratio Math Games

In this session teachers will gain the knowledge, skills & expertise to confidently teach their students concepts related to fractions, decimals, percents & ratios. Students will have fun as they learn how fractions can actually be easy as they learn through the games & activities. *120 minute module*

Concerned about learning loss & making virtual lessons exciting?

Strategies for teaching the games virtually or in-person but physically distanced will be shared and modeled.

Participants may watch these sessions according to your own schedule, when and where you want.

Take a Chance on Probability Games

Teachers will learn a variety of hands-on games & strategies that help students understand the interactions of chance, probability as well as interpreting & inferring graphs. Strategies for teaching the games virtually or in-person but physically distanced will be shared & modeled.

90 minute module

Featuring John Felling

John Felling has been an educational leader for over 35 years. He is a published author and consultant providing insight and expertise in the areas of Math, English Language Arts, Physical Education, Teaching and School Administration. He has presented at many national conferences and conventions including ASCD Conferences on Teaching Excellence, National Council of Teachers of Mathematics national and regional conventions as well as many provincial and state conventions throughout North America.

"X Marks the Spot" Begin- ing Algebra, Expressions and Linear Equations

In this module, teachers will learn a variety of engaging and challenging games and activities that focus on helping students understand Algebra, Expressions and Formulas, and Linear Equations.

90 minute module
