Five Professional Development Hours

Why

The past year has posed significant barriers for students to learn and master mathematics to the level they typically would have been expected to. In this course, teachers will learn effective strategies to facilitate hands-on learning or learning, virtually, and in-person.

Who

John Felling has been an educational leader for over 35 years. He is a published author and consultant in the areas of Math, English Language Arts, Physical Education, Teaching and School Administration. He has presented at many national conferences and conventions including ASCD Conferences on Teaching Excellence, National Council of Teachers of Mathematics national and regional conventions as well as many conventions throughout North America.
