## IMPLEMENTING A CHANGE PROCESS LEADERSHIP AND LEARNING

March 23, 2022 , 9:00 am - 3:30 pm  
NIU Naperville, Room 105

Change is a common entity within a K-12 school environment and successful implementation of change can be instrumental in improving the student learning and teacher instructional practices. This academy will give administrators the tools they need to lead their districts through a change process. Whether that is updating standards, adopting new grading practices or improving instructional philosophies. You will learn how to identify which change theory will best suit your building or districts needs as you continue to lead and grow. Administrators will receive specific tools to support adult learning implementation and build capacity along with ways to assess the implementation plan.

### OUTCOMES:

Participants will learn

- principles of long-term planning
- theories of educational leadership
- assessment of culture and climate
- sources of information for decision-making
- adult learning & PD models
- research based curriculum decision making
- using research standards developed by learned societies
- decision-making based on the needs of the community.
