

GRADES 3-5 MATH GAMES**PLACE VALUE****FEATURING JOHN FELLING****OCT 5, 3:30 - 5:00 CST****1.5 PD HOURS**

Place value form the foundation for success in all areas of the upper elementary math curriculum. Place value needs to remain front and center in your teacher as you work through the rest of the year. If your students do still have gaps or learning loss, this is a workshop that will really help you rebuild their confidence and competence.

You know where your students are after the start of school and this workshop will help you continue to work on solidifying the following concepts:

- base ten activities
- composing/decomposing numbers
- comparing and ordering numbers to millions
- comparing and ordering decimals
- rounding and expanding numbers
- using number lines for patterns, estimating sums/differences, rounding

**Who Should Attend? Third to
Fifth Grade Teachers,
English Second Language and Special Ed Teachers**

Throughout the workshop participants will play games that incorporate the use of cards, dice, and number lines and get ideas for easily differentiating the activities so that all learners can be engaged and successful. Games can be used in centers, small groups or in whole class instruction. You will receive an extensive PDF handout with gameboards, math journal and math talk extensions, and concept skill checklists for assessment. This is a hands-on session **PARTICIPANTS NEED TO HAVE ON HAND A DECK OF CARDS AND 8 REGULAR DICE, A COPY OF THE PDF HANDOUT.** Optional 0 - 100 number line and place value dice.

COME PREPARED TO PLAY (who knows, you may win a prize)!
